FRANCO-AMERICANS STILL PUSHING ON,

GERMANS TRYING TO ESTABLISH A SOLID LINE.

Enemy Being Squeezed into Another Bulge.

London, July 31. A French communique says: -- After a strong bombardment, the Germana attacked our new positions east of Ouloby-le-Chateau. to hand and was finally carried by an American counter attack. Observed, especially in the localities of submarine and aviation Numerous enemy raids near Mesnil St. Georges, east of Montdidier, etations. All the machines safely returned. at Bois-le-Pretre, on the right of the Meuse and in the Vosges were unsuccessial. We carried out a raid north-east of Perthes-les-Hurlus and brought back prisoners. There are artillery actions on the whole battlefront. Between Montdidier and the Oise an enemy raid, north of Autheuil was resultless.

British Aerial Exploits.

Field Marshal Sir Douglas Haig reports :- There is hostile artillery activity south-west of Albert and east of Robcq . Our dumps. More enemy machines were encountered and we brought committee to study the supply-of-food programmes and to co-ordinate down fifteen and drove down six out of control. Six British them regarding available shipping. machines are missing. Our nightfliers dropped three-and-a-half tons of bombs. In addition to those already reported, our infantry shot down an enemy machine on July 29.

British Captures.

London, July 31. In the House of Commons, Mr. MacPherson stated that since March 21 the British have taken about 14,500 prisoners on the Western Front.

The Enemy's Futile Efforts.

London, August 1. A Havas Agency message, despatched from Paris on July 31, states:-The German resistance is gradually losing its character of a rear guard defence. The enemy unceasingly throws in numerous. fresh divisions in an attempt to slacken our advance, and it seems he is endeavouring to establish a solid line held by the bulk of his attained. forces. Despite this, Franco-American forces are pushing forward north-east in the direction of Fismes. They have within the last twenty-four hours met with several strong German counter-attacks. They have broken them and hurled the attackers back to their

starting point and beyond. In the Rheims region, the Germans endesvoured to remove the danger of having their left fink turned by attacking strongly at St. Eaphraise. The enemy failed to storm this valuable support point and had to centent himself with creeping up slightly toward the village. As a result of the converging movement being carried out by the French and American troops advancing from Fere and by General Berthelot's forces moving up Ardre, the foe is gradually being squeezed in another bulge which the Allies have created for

A Fleid Marshal Assassinated in Russia. London, July 31.

Reuter's correspondent at Amsterdam states that an official message from Kieff, dated July 30, via Berlin, says that when, at two o'clock in the afternoon, Field Marchel von Eichhorn and his Adjutant, Captain Von Dressler, were returning from the Casino near Von Eichhorn's house, a man drove closely past them in a cab and threw a bomb. Both were very seriously wounded and subsequently died. The assassin and cab-driver were arrested. An enquiry has established that the crime originated among the Social Revolutionaries at Moscoow.

IMPERIAL PREFERENCE:

A Matter of Domestic Policy.

London, July 31. Sir Bobert Borden, speaking at the Savoy Hotel, declared that neither the Imperial War Cabinet nor the War Conference had this year considered the question of Preference. The recent announcement on the subject was made on behalf of the British Government as a statement of domestic policy.

CHOLERA IN PETROGRAD.

London, July 31. Renter's correspondent at Amsterdam save that a message from Koyno gives the information that cholers in Petrograd in continually increasing. On July 20, 70 ones were recorded and on the 21st there were 209 cases.

NO PEACE OFFERS TO BRITAIN.

London, July 31. In the House of Commons, replying to Mr. Lees Smith, Mr. Ballour stated that "no enemy Government had approached the British Government regarding passe.

-GERMAN BOMBING OF HOSPITALS:

London, July 31. In the House of Commons, replying to a question, Mr. Mao Pherson stated regarding the German Government's attempt to justify the bombing of Etaples hospital on the night of July 19, on the ground that the red cross was not shown, that he was estisfied that the red cross was shown then. Anyhow hospitals were bombed on the night of May 31, although photographs in the German newspapers showed the red cross displyed thereon on May 27.

ALLIES' AIMS IN RUSSIA.

No Idea of Territorial Aggrandisement, London, July 31.

Renter is informed that the object of the Allies' action in Russia is to assist the Czecho-Slovec armies and prevent any danger thereto from Germany, also to prevent at any cost the Germanisation of any portion of Bussia. The Allies have not the slightest intention of doing anything tending towards their territorial aggrandisement. Their main purpose is the maintenance of Russian sovereignty. "Not a single soldier will remain in Russis when these objects have been

THE BATTLES IN FRANCE.

A Valuable Point Captured. London, July 31.

Reuter correspondent at American Headquarters, writing on Tuesday evening, says: Butte Chalmont has been the centre of the enemy resistance west of the salient and its capture by the Allies brings the much needed assistance to the flank of the American line at Seringes. It will be certainly costly to take the Forest of Nesles, but there are alternative possibilities in the open ground west of the railway now that Butte Chalmont is in our hands. Against that must be set the fact that the Germans still hold both flanks of the salient. It is still impossible to estimate the enemy's enormous losses in munitions. The forest roads are bordered with shells for miles and dumps, covering acres, piled to the height of a man have been discovered.

Field Marshal Sir Douglas Haig reports: We captured prisoners in successful raids and patrol encounters in the neighbourhoods of Lens, Buthune and the northern sector of our front. We drove off raiders southward of La Bassec. The enemy's artillery is active astride the Somme, about the Merris and Kemmel sector.

An American official message says: We repulsed counterattacks, after severe fighting, on the Ourcq and improved our positions.

An Anglo-French Attack.

London, July 31. Correspondents with the French armies state that the attack on the front Oulchy-le-Chateau, on Grand Rozoy and Butte Chalmont was carried out by Anglo-French divisions. The British, according to a French Staff Officer, bore the hardest part of the work and fought brilliantly, storming the line of heights beyond Rozoy and advancing over the open ground sloping gradually to the enemy's positions, through a terrific fire.

A New Battle Foreshadowed.

Paris, July 31 Experts agree that the present hard fighting is merely a prelude to the new great battle. The enemy is striving most desperately to consolidate his front on both wings.

German Hope of Revenge.

Paris, July 31. A semi-official message says: The Allies north of the Marne are no longer facing isolated rear-guards, but a continuous line of resistance defended by considerable forces. Five fresh enemy divisions were identified yesterday, including some of the best. The enemy is undoubtedly busily reorganising his rear and has not lost hope of revenge either on this front or elsewhere.

An Allied Attack Expected.

Amsterdam, July 31. The "Westfaclische Zeitung's" expert is of opinion that General Foch will renew his attacks with the object of

The Society also has recently ordered 300,000 copies of the Gospel portions of the New Testament for general distribution. These are the largest orders for the Scriptures ever given by the Society. The Society has not been able to furnish the Scriptures fast enough to the camps in the immediate vicinity of New York: Every few days a shipment of several thousand "active service" testaments is made to Fort Slocum, Camp Merrit and Polham Bay. These testaments contain a message from Gen. Pershing, a suggested list of passages to read in times of emergency, and a decision form

which may be signed.

A Humane Negro. In a vain effort to rescue a blind horse that walked into the East River from the pier at the foot of 11th Street late one night recently, Herbert Barnes, a coloured janitor, twenty-one years old, of 146 Avenue D. fell overboard and nearly lost his life. He was carried by the outgoing tide to Ninth Street, where he was rescued by several patrolmen with the aid of a rope. Birnes was removed to Bellevue Hospital suffering from submersion. The horse wandered from its stable in the vicinity of 11th Suest near the waterfront. Barnes and several others saw the horse struggling in the water and made efforts to rescue it. They finally succeeded in lassoing the animal and when they attempted to lift it ashore Barnes fell into the river. The horse was again carried off, and when last seen it was floating toward the Brooklyn shere.

A German Prisoner's Escape.

A few days ago it was reported that a German prisoner who had eccaped from custody in Japan and was recaptured had been gentanced to three years' penal servitude, says the Japan Chronicle. We understand that the sentence was not imposed because of the escape but because the man had in addition been guilty of theft, adds the Kobe paper. To punish a prisoner for an attempted eccape -otherwise than by a disciplinary penalty, such as detention in barracks, is against the terms of the Hague Convention.

The Hougkew Riots. Chinese constables in the Central District were armed with rifles on July 24 for the first time since the rioting in Hongkew but with the exception of the bordering roads of the district Hongkew was still without Ohinese policemen, the men doing duty in other districts. Hongkew was again policed by some 90 Specials, two companies working two-hour shifts, 8 to 10 and 10 to 12. It will probably be some. days before Chinese constables will be seen on night duty in the Hongkew police district, where outwardly, at least, things have assumed a normal aspect.

Hens' Service.

Even hens are preseed into war service in America. The sale of live or freebly-killed hers was prohibited for two months this spring, thus conserving three and a third million hens on the New York, Chicago, and Boston markets alone. The regulation was designed to safeguard the hene during the laying and hatching period, thus securing a normal poultry supply for the coming winter.

Mercantile Marine Prisoners of War.

Further urgent representations on behalf of the merchant captains, officers and men who have been interned at Ruhleben ever since the war started, have been addressed to Lord Newton by the Imperial Merchant Service Guild, who have once again emphasised the position of these prisoners, who have the very greatest claims upon the Government for release—especially having regard to the services of the Mercantile Marine in the cause of the Empire. The Guild pointed out that these prisoners have been lingering in the Ruhleben Camp for nearly four years, and are now reduced to desperate straits. Most of them, it is stated. are mere physical and mental wrecks who even if released, will never recover their normal state of health. A reply was recently received from Lord Newton, who expressed his thanks for the Guild's further representations and the information supplied.

increasing Beliast Port Tonnage. At the fortnightly meeting of the Belfast Harbour Board. recently, Mr. Thompson, M.P., presiding, the barbour master" reported that the total tonnage of vessels arrived from 1st Jan. to 1st June was :- Cross Channel and coastwise, 855,0'4 tons, compared with 141,359 tons for the corresponding period of last year, ____ an increase of 12,665 tons; foreign 159,164 tons, last year 149,781 tons, increase 9.383 tons—tctal 1,014,188 tons, as against 992,140 tons, an increase of 22,048 tons. The Chairman congratulated the board on the more favourable return, not only for the past fortnight, but during the present year. He hoped it was significant of what was coming in the future.

Shipping Sales. The recent revision of Blue Book rates for which owners had been agitating for some time on the grounds that owing to the enormous advance in everything appertaining to the management and working of steamship tonnage, the rates existent left no margin, and in many cases resulted in actual loss, has had the natural effect of reanimating the demand from buyers for all desirable second-hand tonnage. and brokers report quite a distinct fillip to the shipselling business since the advance, ranging from 9s 6d in the cases of 300-450 gross register boats to 2s 6d per gross register ton on boats over 7,000 tons dw., has been granted. That this advance has not been without -effect on the capital value of steam tonnage is very readily. shown by the enhanced prices obtainable new for tonnage as against what was paid for similar class of boats only two to three months ago, says the "Journal of Commerce." Cardiff buyers have just acquired the Whiby steamer Glenbridge for the sum of £118. 500, which compares with £111. 000 paid for an identical boat. only in January last, so that the effect of the revised rate of remnneration is of a very evident and practical nature. The Glenbridge is of a single-deck type. 2.431 tons net and 3,845 tons gross register and carries 6,580 tons d.w. on a draught of 21ft. She was built in 1911 by Irvines' Shipbuilding and Dry Dock Company, West Hartlepool, triple engines and bailers by Richardson, Westgarth and Co., West Hartlepool, and steams 92 knots on a very moderate coal consumption. She has four hatches 27ft. by 18ft., and eight steam winches, 1,010 tors water ballast in usual compartments, and is now in Type completing repairs. when she will be taken over by her new owners, her late owners being Messrs, Milburn, Lund and Co., of Whitby. She is classed 100 A I in Lloyd's Register, Hull 350ft. long, 51.1 besm. and 263 depth moulded, The West Hartle-

pool steamer Otto Trechmann 2,339 tons net, 3.736 gross register. and carrying 6,730 tons dw. on 214ft. draught, has just been bought by I iverpool owners at a price closely approximating to £20 per ton. She was built in 1911 by Messrs, Wm. Gray and Co: West Hartlepool, engined and boilered by Central Marine Engineering Works, West Hartlepool, and steams I0 knots on 21 to 22 tons coal consumption. She has four hatches 25ft. by 18ft. and one hatch Ieft: by 10ft. and is fitted with eight steam winches by Regers. She has I,150 tons water ballast in usual tanks and double bottom, and passed survey in February last at Shields, when she reclassed IOO A I in Lloyd's Register. Her late owners were Trechmann S.S. HONGKONG STORM SIGNAL CODE. Introduced on 1st JULY, 1917.

DAY SIGNALS. SIGNAL. MEANING. A typhoon exists which may possibly cause a gale at

Hongkong within 24 hours. Gals expected from the North (N.W. to N.E.) South (S.E. to S.W.) East (N.E. to S.E.) West (N.W. to S.W.) Wind of typhoon force expected (any direction.)

Signal No. I is intended as a warning to "Stand By " and watch for the next signal. When it is holsted after a black signal has been displayed it will mean that, on account of a change in the track of the typhone, or for some other reason, a gale is no longer expected from the direction indicated by the last signal, and that another black signal may possibly be hoisted later.

Signal No. 7 will be accompanied by three explosive bombe, fired at intervals of 10 seconds at the Water Police Station and repeated at the Harbour Office.

The signals will be lowered when it is considered that all danger is over.

The Day Signals will be displayed at the meethead of the storm signal mest on Blackhead Hill. Hongkong and Kowison Wharf and Godown Company at Kowloon, the flagstaff on the premises of the Standard Oil Company at Lai-chi-kok, and the flagstaff near the Field Officer's Quarters at Lyemus.

NIGHT SIGNALS. (Lamps,) WHITE WHITE GREEN WHITE

The Night Signals will be displayed, at sunset, on the tower of the Railway Station, on H. M. A. Tamur, and on the Harbour Office flagstaff. They will have the same signification as the day signals.

Signal No 7 will be accompanied by explosive bombs as above, in the event of the information conveyed by thus signal being first published at sight. SUPPLEMENTARY WARNINGS. When local signals are displayed in the Harbour a CONE will be exhibited at the following stations:-WAGLAN

SAI KUNG STANLEY SHA TAU KOK ABERDEEN to notify the fact to native craft and passing ocean vessels.

Further details can always be given to ocean vessels, on demand, by signal from lighthouses.

HONGKONG STORM SIGNAL CODE. (NON-LOGAL). Introduced on 1st JULY, 1917.

The following information is given: Typhous and Continental | fall Position of centre: by 4 symbols at one yard non.

| Depression Signals | fall Position of centre: by 4 symbols at one yard non.
| Depression Signals | fall Direction to motion and velocity of centre, and the time; by 3 symbols |
| at the other yard arm (Tables 1, 2 and 3).
| Gale Signals | fall The region threatened, the direction from which the galeois expected, and the time; by 3 symbols at one yard arm (Tables 3 and 4). EXPLANATION OF THE SIGNALS.

The two upper signals of group (a) indicate the latitude, and the two lower symbs is the longitude of the centra of the Typhoon or Depression in degrees, as nearly as can be ascertained from the information available. Only the tens and units of the longitude are given; thus, 19 indicates longitude 109 E.

The upper symbol of group (b) indicates the direction in which the Typhoon or Depression is travelling. (Table 1.) The models symbol of group (b) indicates the velocity at which the centre of the Typhoon is travelling. Alternatively, it may indicate certain conditions, or a Continental Depression. In such cases The lowest symbol of group (b) indicates the time at which the centre was in the position atgns) led.

The upper symbol of group (c) indicates the region threatened; the middle symbol the direction from which the gale is expected, and the lowest symbol the time at which gale conditions were first

CAUTION,—Under the most favourable circumstances the position signal indicates only the degree of latitude and longitude nearest to the estimated vosition of the centre. When the centre is far from any reporting station, or when telegraphic reports are lacking, the position signalled may be no much as 2' in error, both in latitude and longitude, and the velocity and direction of motion will then be in error by corresponding amounts.

It should be particularly noted that the velocity signalled in the most for the provinces 16 or 24 hours.

Japanese Bank in Buenos

There will shortly be opened in Buenos Aires a branch of the Yokohama Specie Bank, and the branch will receive assistance from the Imperial Bank of Japan, which is said to be officially associated with this enterprise in Argentina." According to an article appearing in "La Nation" of May 2, 1918, this branch bank is being established for the purof falfilling a kind of mission of international exchange, oredit operations in Buenos Aires will be restricted by discumstances and surroundings, since it will have to compete with old, and powerful national 科技歷史 and foreign institutions that now 瓜青 shooth Home and foreign commerce of Argentins. It will have 麦子菊 to confine itself to direct operatof exchange between 力技 Argentina and Japan and its essential object will be to foster 文生洋 reciprocal commerce, which is to-day at a standstill and upset so far sa Argentina's exports are concerned.
